EXPERIENCE

Unique Force Technology Solutions PVT LTD | Software Developer Intern

- Observing company's environment and completed my final year project. Explore the IT environment in and out of work, gaining a better understanding of the industry and its operations. Learn from senior leaders in the company, who provided insights into the industry and software development cycle.
- Gain hands-on experience by applying my skills and knowledge to my assigned project, which will ease my entry into my work life after graduation. SKILLS UTILIZED:
JAVA

PROJECTS

Smart Web Advertisement Portal | JAVA, MySQL, JavaScript.

A smart web advertisements portal is a platform that helps businesses create and manage their online advertising campaigns. It provides tools for creating ads, targeting specific audiences, and tracking the performance of the ads. You can mention your experience in creating and managing online advertising campaigns using such portals in your resume. You can also highlight your skills in using these portals to create effective ads and target specific audiences.
